2 October 2026

Your reference: OGPEG003
Application No.: **GB2602995.9**

Latest date for reply: 2 November 2026

Patents Act 1977: Intention to Grant under Section 18(4)
Letter code: EL34 - EA

I confirm that the examination of your application has been completed. The examiner has found that it complies with the requirements of the Patents Act.

Basis of the examination

The examination has taken account of the amendments filed with your agent's letter of 29th April 2026.

Later update to search

The Patent Examiner has been unable to complete a search for recently published patent documents that have a priority date earlier than that of your invention, and which may be relevant to the novelty of your application under section 2(3). This search will be completed once 21 months have elapsed since the priority date of your invention. If this search reveals relevant documents, then action may be taken to revoke your patent after grant under section 73(1).

As no grant fee is required, your application will be forwarded for grant after the "Latest date for reply" given above.

If you wish to take any further action with regard to this application, then you will need to do so by the "Latest date for reply" given above. Note that any further action, including filing a divisional application, must also comply with the requirements of the Patents Act 1977 (as amended) and Patents Rules 2007 (as amended).
